

## **Fly Tying Meeting on Wednesday 29 November at 7.15 pm in Stokes Valley RSA**

### **This month - Cicadas**

In preparation for a great Cicada season ahead we will watch Willie tie one of his excellent artificial Cicadas then we will follow his instruction to create a replica.

Willie has advised that everyone should bring:

Strong tying thread

Superglue

Good scissors – (curved nail scissors would be OK)

All other materials will be on hand at the meeting.

### **Bound Shield Fly tying Challenge**

Last month I asked members to tie a Mayfly Emerger and a Caddis Emerger. No entries were received and so that will be the November challenge.

**Breaking News : HVAC Team retains Flyshop (sponsor) Interclub Fly tying Trophy. Top Fly trophy went to Ajit for his realistically scary Mosquito.**
